

Proclamation

OUR VALUES, OUR STUDENTS, OUR SCHOOLS

We, the educators/ESPs of Gopherville,
believe our students deserve excellent schools with the resources they need to prepare them for
successful lives and make our families and communities stronger.

Today, we begin the process to negotiate collectively for our 2019-2021 contract. We are calling
on all decision makers, from Gov. Tim Walz to Rep. Sally Lawmaker, Rep.
Steve Billdrafter and Sen. Marge Legislator,

our local legislators, to the members of our locally elected school board, to provide the visionary
funding our students need to succeed today and in the future. Specifically, we educators know
our students need:

Smaller class sizes, more arts and electives,
mental-health services, more counselors.

We call for these resources because our values as educators require that we speak up for all
students and all families. We make these demands because we believe:

all Gopherville students deserve the best schools
we can provide, staffed by well-trained, professional educators.

We stand united in proclaiming our intent on March 13, 2019, to negotiate collectively on behalf
of our students.

Signed in solidarity today by: Gopherville Education Minnesota
