### Candidate Statement

All core labor issues – This will be my primary focus as I want my tenure to refocus on the labor aspects of the union to win new, and earn back, potential members. My focus will not be on issues that are not core labor issues.

A side priority for me, if elected, will be advocacy to move to the popular vote whereby all union members vote for President, Vice President, and Secretary/Treasurer of Education Minnesota, instead of utilizing the representative system. This proposed change will have to follow the Education Minnesota motions and changes process through all appropriate channels.
