

As the daughter of a public school teacher and custodian, I know the value of hard work. As a local union president, I see daily how working people thrive and achieve their dreams through collective action. I have the track record and determination to improve working conditions and bring economic security, including salary, affordable healthcare, and a better pension for our members. Working in union matters and I want to continue this work with you as your next Education Minnesota Vice President.

*Marty*

**MARTY  
FRIDGEN**

**for**

**Education Minnesota Vice President**
